Animal Origin Statement

Greenfield Global Inc. and its subsidiaries use absolutely no animal origin materials whatsoever, in any part of their operations, associated with the manufacture and distribution of any of its alcohol products, including all its Ethyl Alcohol products.

In addition, Isopropyl Alcohol 99% and 70%, packaged and distributed by Greenfield Global, contain zero animal origin components.

As such, the above products are in full conformity with EU Directive EMA/410/01 rev. 3 *Note for guidance on minimizing the risk of transmitting animal spongiform encephalopathy agents via human and veterinary medicinal products.*
